FORGING AHEAD

War Effort Of India

LONDON, Nov. 22 (Reuter).—The strength of forces in India supporting the war effort was stressed by Sir Feroz Khan Noon, High Commissioner, in a broadcast.

He said that Indian princes without exception have thrown in their lot as had the 90,000,000 Moslems under the leadership of Mr. Jinnah, Moslem provinces, martial Sikh community, the Hindu mahasabha, Parsees, the Liberal Federation and many other organisations.

The Congress Party, he added, although declaring for individual civil disobedience and lodging personal protests, had not hindered the war effort which, with unlimited resources of man-power, raw materials and manufactured goods, was forging ahead.

Pershing As Envoy?

NEW YORK, Nov. 22 (Reuter).—The NEW YORK TIMES announces that General Pershing has been selected as United States Ambassador to Victory.

The State Department, the paper says, refuses to comment on the report.

The decision to appoint an Envoy to the Vichy Government is considered significant in diplomatic circles who regard it as a move to strengthen Marshal Petain's hand regarding German demands in Africa.

Gen. Pershing is 80.

HOW TO SEND H.K. WEEKLY PRESS ABROAD

In view of the fact that the general public is now precluded from posting newspapers abroad by the Defence Regulations, the Hongkong Daily Press, Ltd., publishers of the Hongkong Weekly Press, are prepared to undertake posting the Weekly Press to friends and relatives of subscribers in Australia or elsewhere.

As it is necessary to post this publication in one lot, subscribers are requested to place their orders with us on or before Thursday in each week at the latest.

NAVY'S HEAVY BURDEN: GRAPHIC DESCRIPTION OF RECENT EXPLOITS AT SEA

"ATTACKS ON SHIPS IN ENEMY HARBOURS HAVE ALWAYS BEEN A GREAT PROBLEM AND THE QUESTION HAS ALWAYS BEEN HOW WE CAN PRESS HOME AN ATTACK," said a Naval observer, in the course of a talk in London yesterday on the heroic exploits of the British Navy and the Fleet Air Arm in recent events in the Atlantic and the Mediterranean.

The speaker opened his talk by referring to the dangers which face the merchant service in times of war and the heavy burden that is thrown on the shoulders of the Royal Navy in protecting this merchant shipping.

"Let me assure you," he said, "that the work they are doing makes one realise what we are fighting for, because from the operations point of view it is a difficult matter."

"We all know how a German raider attacked our Atlantic convoy and how the

gallant action of the Jervis Bay resulted in most of the ships getting home. These are the sort of deeds that will go down in history.

"Capt. Fegen's job was to defend his merchant ships, but the moment the enemy appeared, though he was outnumbered in everything but guts, he went straight into action."

"That is symbolical of the whole naval situation at the moment. Now the tide has turned and from all quarters comes news of going into attack."

KING'S SPEECH HELD UP BY CENSOR!

HIS MAJESTY THE KING'S speech at the opening of the new session of Parliament was held up in London for twelve hours by the censor! His Majesty's speech, which was delivered at 3 p.m. in London on Thursday, was cabled out to Hongkong yesterday morning.

In any other country the world over, the holding up of a speech made by the head of a state would be regarded as a direct slight on his dignity and status. The censor in London apparently thinks nothing about committing an act which should be regarded as an insult to Royalty.

It is inconceivable that the censors department should consider that the King of England would say anything that should not be said, particularly after it has been broadcast to the world at large.

FAR MORE POWER THAN DICTATORS CAN PUT FORTH

LONDON, Nov. 22 (Reuter).—"Sovereign of a worldwide commonwealth of free peoples, the King made his two speeches to Parliament with far more power than the Dictators can put forth," says the DAILY TELEGRAPH.

"There could be no more striking illustration of the truth which his Majesty declared when he said that the war is 'a clash of fundamental ideals' than the contrast between the practically continuous session of Parliament—prorogued one day and recalled the next—and the irresponsible tyrannies of the Axis."

"Just as the Fuehrer and Il Duce dare not travel through their countries unprotected by bullet-proof screens, so they cannot allow their enslaved peoples an act or even a word in the determination of the policy and provision for war."

TESTING TIME

"We have to fight through a testing time between the industry of freedom and the forced labour of the autocratic States and all they stress assure us that we have no need to fear the issue."

THE TIMES says that the speeches of the King and his chief advisers should strike a responsive chord in the world far beyond these islands.

"The occasion on which they were delivered show that Parliamentary procedure can be made to accord with the stress of a critical epoch. With ancient forms and modern weapons this country stands forth today, as many times before in history, a friend of the oppressed and defender of right."

REPORTED CAPTURE OF KORITZA BY THE GREEK ARMY: STRATEGIC IMPORTANCE OF TOWN STRESSED IN MILITARY CIRCLES IN LONDON

Enemy Air Bases In Brittany Attacked

LONDON, Nov. 22 (Reuter).—Coastal Command bombers carried out successful attacks on enemy air bases in Brittany, Normandy and Ploeghe on Wednesday night and one Blenheim, while preparing to bomb the landing ground near Amiens, brought down a German bomber which was apparently setting out on a raid over Britain.

The enemy machine, which was a twin-engine bomber with its navigation lights still on, was sighted by the Blenheim at 5,000 feet. Attacking head-on the British machine got in bursts of gunfire from the front and rear guns, and the enemy, after a steep dive, was seen blazing as it fell close to the aerodrome and just left.

Coastal Command Hudsons also carried out a further attack on the oil plant at Vlaardingen, in Holland.

LONDON, NOV. 22 (BRITISH WIRELESS).—MILITARY CIRCLES IN LONDON, DISCUSSING THE REPORTED CAPTURE BY THE GREEK ARMY, OF KORITZA, EMPHASISE THE GREAT STRATEGIC IMPORTANCE OF THIS TOWN WHICH WAS THE MAIN BASE FOR THE ITALIAN ADVANCE IN THIS SECTOR AND IN THE GREAT ROAD CENTRE.

Throughout the Pinus sector, the front is now on Albanian territory, while farther south in the Epirus sector there appears to be an extensive break in the Italian resistance the diminution of aerial activity being especially noticeable.

IT IS POINTED OUT, HOWEVER, THAT THIS MAY BE TEMPORARY AND ACCOUNTED FOR BY INCREASED OPPOSITION MET BY THE ITALIAN AIR FORCE.

Unstinted admiration for the magnificent fight put up by the Greek Army is expressed by military circles where a sincere tribute is paid to the efficient leadership which has animated the Greek command and imbued the troops with like determination.

Although disparity in the equipment of the opposing armies is more noticeable three weeks ago than now, the brilliant Greek successes show what well-led troops can, and will do, by making use of the knowledge of the country and the determination of the troops.

In about three weeks, the determined Greek Army has almost everywhere forced the invading Italians back across the frontier.

POGRADE ET ENTERED

BELGRADE, Nov. 22 (Reuter).—Following the occupation of Koritza, the Greeks are reported to have also entered Pogradet (22 miles

north of Koritza) and have even passed beyond.

This would mean the Greeks have cut the only road between Koritza and El Basan, in Central Albania, thus cutting off the Italian troops operating in the extreme east along the Koritza-Florina road.

Many of these are now surrendering to the Yugoslav authorities. The latest reports also state the Greek offensive in the direction of Argirocastro is progressing favourably, thus outflanking the Italian forces on the western coastal sector of the battle front.

GREEK FLAG HOISTED

ATHENS, Nov. 22 (Reuter).—As Greek troops entered Koritza, the Greek flag was hoisted over the Town Hall.

Following the withdrawal of the Italians, the municipal authorities had sent an invitation to the Greeks to take over. As the Greeks marched in, crowds broke through the Police cordons, cheering.

News of the capture of Koritza is now being flashed through every

"STATE OF SIEGE"

Dardanelles Defence Zone

ANKARA, Nov. 22 (Reuter).—There is reason to believe that the Grand National Assembly will soon be asked to authorise the Turkish Government to declare "a state of siege" throughout the zone of military defence in the Dardanelles and the Bosphorus.

This would enable the military and police authorities to impose curfew, restrictions on movement, requisitioning of property and other measures necessary for the security of this vital zone in Turkey's defences which includes Thrace and Istanbul.

The Government's proposal doubtless has been prompted by the possibility of complications arising from the Italo-Greek conflict.

Building Of New Dugouts For Populace In Chungking

CHUNGKING, Nov. 22 (Reuter).—For better protection for Chungking populace against air raids, the Government is appropriating another half-a-million dollars for the construction of new dugouts here.

Chungking at present has 1,189 dugouts accommodating 350,195 persons.

The latest census gives the city's population at 353,188, not including those in the suburbs.

This year, the Japanese used five times as many planes than last year in attacks on Chungking but this year the total casualties are only two-thirds of last year's figures.

CONGRATULATIONS SENT TO R.A.F. SQUADRON

LONDON, Nov. 22 (BWS).—The British Air Minister, SIR ARCHIBALD SINCLAIR, in a telegram of congratulations to the R.A.F. fighter squadron in Greece on its recent smashing successes against Italian aircraft over Albania says:

"Congratulations to the squadron on the speed with which it got into action on its most encouraging fighting."

Chief of Air Staff, Air Chief Marshal Sir Charles Portal, telegraphed: "We are all delighted at the splendid success of the squadron in its first action in Greece. Heartiest congratulations."

REPRESENTATIVES OF GERMANISED RUMANIA RECEIVED BY HITLER

The representatives of Germanised Rumania (GEN. ANTONESCU, Prime Minister, and the FOREIGN MINISTER) were received in Germany yesterday morning with flattering ceremony, says a London message.

Soon after they arrived, the representatives had a talk with the German Foreign Minister and then went to see Herr Hitler. They were given military honours by Hitler's bodyguard at the Reich Chancellery.

Another visitor expected in Berlin is the Prime Minister of Slovakia, Dr. Tuka.

MERE FORMALITY

LONDON, Nov. 22 (BWS).—The summoning of Gen. Antonescu to Berlin and his arrival there this morning will, it is assumed, be followed by an announcement that Rumania has joined the Axis.

As in the case of Hungary, such a development would do little to increase the German hold on Rumania, on whose soil are already several German divisions and many experts on oil production.

And, as in the case of Hungary, it is fully recognised here that the accession to the Axis in the case of Rumania is a mere formality and is without popular backing. With the peoples of both countries British has many sympathies.

Tube Railway Jubilee

The world's first tube railway celebrates its jubilee in December. It is 50 years ago since Edward VII, then Prince of Wales, inaugurated this pioneer line running south from the City of London under the Thames.

Its original three miles of track is now 200 constructed at an average cost of £1,000,000 a mile, says British Wireless.

Today it is operated by the London Transport, serving a population of almost ten millions.

OKITSU, Nov. 22 (Reuter).—The high pulse count registered by Prince Sajonji, who has been critically ill in the last few days, continue to cause concern to the staff of physicians headed by Dr. Katsunuma who is attending the aged statesman.

Hitler's Week But Only Up To A Point: Will Probably Launch Grand Design In New Peace Offensive: How Can He Give Help To Mussolini?

"IN A WAY AND UP TO A POINT, BUT ONLY UP TO A POINT, THIS HAS BEEN HERR HITLER'S WEEK. THE GREEKS MAY CLAIM TO CALL IT THEIR WEEK BUT HITLER HAS KEPT HIMSELF IN FRONT OF THE STAGE," SAID MR. H. WICKHAM STEED, THE EMINENT BRITISH AUTHOR-JOURNALIST, WHEN HE SPOKE IN LONDON LAST NIGHT ON WORLD AFFAIRS.

"Somebody, probably Dr. Goebbels, apparently told Hitler that it was not dignified for him to travel about Europe," continued Mr. Steed. "Surely a dictator and a master of a continent should sit at home and bid others come to him!"

"So this week has seen a procession of minor notables going to Berchtesgaden. M. Molotov had hardly left the German capital when Senator Sumner and King Boris found their way to the same place. And now General Antonescu is hastening to sit at the feet of Hitler."

"Hitler, however, went out of his way to go to Vienna to meet the Prime Minister and Foreign Minister of Hungary after they had signed up on the Rome-Berlin-Japan Pact. This is only the beginning, according to the Germans, and other States are expected to join. Did not Herr von Ribbentrop say, 'I am sure that this Pact will contribute to the restoration of peace in the not distant future'?"

"We have heard something like this before," declared Mr. Steed. "Did not Hitler say in 1936 after occupying the Rhineland that he would make no more claims on France? Did he not say after taking Austria that he had no more designs in Europe? Were

Today's War Summary

KORITZA IS IN THE HANDS OF THE GREEKS. The great strategic importance of this town which was the main base for Italian advance in this sector and in the great road centre is emphasised in military circles in London. On entering Koritza the Greek flag was hoisted at the Town Hall and the news of the capture was received with rejoicing in Ankara.

AN ANNOUNCEMENT THAT RUMANIA HAS JOINED THE AXIS within a few days will occasion little surprise following the arrival there yesterday of the Rumanian Premier, General Antonescu, accompanied by his Foreign Minister. They were accorded a flattering welcome and soon after saw Herr Hitler.

SPEAKING AT A BANQUET GIVEN IN RIO DE JANEIRO in honour of the British Goodwill Mission, Lord Willingdon, head of the Mission, said that as long as enslaved nations in Europe were looking to the British Empire for deliverance and restoration it was clearly impossible for Britain to relax any measures which had been taken to gain victory.

"WITH ANCIENT FORMS AND MODERN WEAPONS THIS COUNTRY stands forth today, as many times before in history, a friend of the oppressed and defender of the right," writes The Times commenting on the King's speech at the opening of the new session of Parliament.

IN A BROADCAST IN LONDON, THE HIGH COMMISSIONER FOR INDIA stressed the strength of forces in India supporting the war effort.

BIG SOCCER MATCH AT C. HILL TOMORROW

Strong Teams Selected For F.A. And Federation BY "PILAT"

The main attraction of the week-end football programme is tomorrow's game between the HONGKONG FOOTBALL ASSOCIATION and the H.K.C.A.A.F. in the first of the Governor's Cup series at Caroline Hill, at 3.45 p.m.

Both sides are very strong and a fine exhibition is promised.

A notable feature of the Federation team is the inclusion of seven Sing Tao players in the line-up. With the great wealth of talent from which to choose the Federation selectors' task was not an enviable one, but the side that has been chosen can hardly be improved upon.

The Association has also chosen the strongest eleven from the material available. It has a strong defence though the selection of David Leonard as left-back may have occasioned some surprise.

Leonard, however, showed very good form while playing in the back division for St. Joseph's. It will be seen that the attack includes only two players from the same club and much will depend on whether they can combine together as a unit.

All the Chinese players chosen are well known to fans and they need no introduction suffice to say they can be depended upon to give enthusiasts their money's worth.

As the result of tomorrow's big match five League games are down for decision this afternoon and all the home teams should register wins.

S. CHINA V. NAVY
The champions, SOUTH CHINA, meet ROYAL NAVY at Caroline Hill in what should prove the best game of the day. The senior Service, after their sorry showing last week, are all out to redeem themselves and the Caroline Hill men will do well not to take them lightly for, on their day, the Navy are capable of upsetting even the strongest of teams.

SING TAO, who will have POLICE as their opponents, should further consolidate their position in the League table with a brace of points.

The Army "derby" between MIDDLESEX and ROYAL SCOTS is down for the Kowloon ground and a battle royal is expected. The "Diehards" play a prettier

type of soccer but the fighting spirit of the latter is well known and they may yet turn the tables by sheer determination.

PSYCHOLOGY OF THE CRIPPLE

Dr. Alan McForest Smith, of the
New York Orthopedic Hospital
draws on his experience to formu-
late a few guiding principles for
dealing with crippled children.

Some, he observes, are cheerful,
others resent their misfortune and
appear to blame all mankind for
their lot. Some are independent
and insist on supporting them-
selves, while others feel that the
world owes them a living.

Their attitude is largely deter-
mined by the way people treat
them. It is natural to sympathize
with the handicapped child, but a
grave mistake to induce self-pity.

Crippled children should be en-
couraged to take part in every ac-
tivity of which they are capable,
and to attempt things which may
seem difficult or impossible. So
encouraged, it is astonishing to
see what can be done in spite of
severe handicaps and such
achievements bolster the child's
moral.

SOME PARENTS attempt to com-
pensate their children for their
misfortune by rewarding them in
various ways. They are showered
with presents, are consoled when
they fail at school, and are always
allowed to have their own way.

Thus, the children are thorough-
ly spoiled and made into disagree-
able brats who grow up with the
idea that they are entitled to care
for the rest of their days.

It is a great mistake to shelter
the crippled child, and keep him
away from other children. True,
children are generally cruel and
inclined to taunt the cripple. How-
ever, it is essential that the cri-
ppled child should be taught to fend
for himself and acquire equani-
mity in the face of hardship.

A firm, even somewhat stern,
attitude on the part of parents
and teacher is better in the long
run than one of too great sympathy
and indulgence. Any cripple who
has been brought up to take care
of himself and who has been
treated as normal will have every
reason to be thankful later and
will also be far happier during
childhood.

LORD HALIFAX GIVES REPLY TO MUSSOLINI

British Foreign Relations Reviewed In Parliament

LONDON, Nov. 22 (Reuter).—The latest position affecting Britain's relations, particularly with the Soviet Union, the Vichy Government and Greece, was reviewed in Parliament yesterday by Lord Halifax, Foreign Secretary, who also dealt vigorously with Signor Mussolini's recent allegation of British responsibility for the war.

"According to the information at our disposal there is little new I can at present say to give an indication of what passed during M. Molotov's recent visit to Berlin. We have made certain proposals for a trade agreement with the Soviet Government and these are still before the Government and we are awaiting their reply to proposals which we had some reason to believe were likely to be acceptable to them.

"Proposals have also been made for compromise on various questions arising out of the Soviet annexation of territory. To all these we are still awaiting a reply.

"I cannot help feeling," continued Lord Halifax, "that despite Mussolini's assurances to the Italian people that everything is going to be alright, that there is a growing number of people in Italy who are not too happy as they hear about Taranto and they see the humiliation to which they have been exposed in this new war forced upon them by the ambition of their leader, regarding whom they have been taught, with parrot-like monotony, to repeat that he is always right.

WAR OF NAKED PLUNDER

"If ever there was a war of naked plunder it is this one against a small people who have shown their world that as in invasion of their ancient history, courage and love can be more powerful than numbers. Never in the course of her long history has the name of Greece stood so high or the name of Italy so low.

"There were so many false allegations and distortions in Mussolini's speech," said Lord Halifax, "that I must say a word about them."

WAR RESPONSIBILITY

The Foreign Minister referred particularly to the "extraordinary statement" that responsibility for the war falls exclusively upon Britain, with implications that this country is responsible for involving Italy in the war.

"Our conscience is perfectly clear as to the responsibility for war between Germany and this country and documents have been published which amply support that view.

"As regards Italy the truth is well known—that their Government were given no excuse either by this country or by France ever to believe that Italy would be in danger of attack by France or ourselves.

ITALIAN GAMBLE

"It is Mussolini and he alone who wantonly launched his country into the conflict a few days before the collapse of France gambling on the prospect of an easy victory and an early settlement. That, that in the back of our former ally will hold almost unrivalled place in history as a cold-blooded and calculated act of treachery.

"The main significance of Mussolini's speech is the admission that the war is likely to be long. It is quite plain from the tone of his speech that it was a great surprise to him that Greece had the presumption to reject his ultimatum of October 28.

FALSE SUGGESTION

"It is false to suggest that Greece prepared to join with ourselves in an attack on Italy."

Referring to Mussolini's statement that he obtained the Fuehrer's permission for direct participation in the battle against Britain, Lord Halifax commented, "The British Government must draw the clear conclusion that Italian participation in indiscriminate bombing of women and children in this country is entirely wanton and gratuitous and they will take due note of it."

SITUATION IN EGYPT

The British were still awaiting an Italian assault from Libya. British armies in Egypt had been steadily reinforced with men and material. "We can be satisfied that every position of importance in Egypt and the Sudan is now held with largely increased forces and strength. This fact has had its effect in a greater feeling of confidence in Egypt and through out the Near East."

Increasing help for Britain from the United States was also stressed by Lord Halifax who stated, "Munitions are coming over in a steadily increasing effort and the President has recently announced that we are able to receive ap-

proximately fifty per cent. of all munitions manufactured by American industry."

The construction of many of our naval bases leased to the United States was begun without waiting for the conclusion of formal leases. All these things were indications of "the confidence and understanding which exists between our two peoples and countries."

In conclusion, Lord Halifax referred to Germany's failure to break the spirit of Britain by indiscriminate air bombardment.

"Unless she can destroy the Royal Navy and the Royal Air Force her efforts will be in vain and I think Hitler knows it, for only this can I explain his feverish efforts to obtain some diplomatic success to tide his people over the rigours of winter.

SEQUENCE OF EVENTS

"I don't think his efforts will be confined to the diplomatic field. I believe that we shall witness a sequence of events in which no pledges and undertakings he has given will make him hesitate for a moment to reach out his rapacious hand if he thinks it to his advantage.

"But whatever violent deeds his temporary material superiority may encourage or enable him to do, the day of reckoning will surely come. We shall win through to calmer waters where we shall be able to build a better world, free from this monstrous and idolatrous nightmare of the Nazi creed."

GREEKS ENTER KORITZA AFTER FIERCE FIGHTING

BELGRADE, Nov. 22 (Reuter).—The first Greek patrol entered Koritza yesterday morning after long and fierce fighting, according to reports from Monastir, where the main Greek forces were expected to occupy the town in the course of the afternoon.

RUMANIA NEXT TO JOIN THE AXIS BAND?

Enrolment To Be Less Demonstrative

LONDON, Nov. 22 (Reuter).—Rumania is to follow Hungary into the Axis band if the latest suggestions by German-controlled sources materialise, writes Reuter's Diplomatic correspondent.

It might have been thought tactless, even unkind, to force Rumania into a pact with Hungary to guarantee the "new order" which has been established so large at her own expense in south-eastern Europe.

Rumania's enrolment, however, will probably be staged with less demonstrativeness than the Hungarian accession.

There is no indication of immediate action against either Yugoslavia or Bulgaria, nor any evidence that Germany is preparing to rush to the aid of her sorely beset partner.

CRITICAL POINT

Italy's campaign against Greece has reached such a critical point that only strong and immediate intervention would likely to be effective and it is by no means sure that the Germans have such resources at hand.

It would be very unsafe to take for granted that either Yugoslavia or Bulgaria can be left out of account.

Besides, it can be assumed that the movement of troops against Greece through Bulgaria would be regarded by Turkey as a threat against her vital interests and bring her into the war.

SOVIET-TURKEY RELATIONS

As for the Soviets there is nothing to show that German propaganda allegations about her

VIGOROUS BRILLIANT EXPLOIT AT TARANTO

LONDON, Nov. 22 (BWS).—In a letter from the Greek Prime Minister, to the British Minister in Athens, expressing congratulations on the brilliant exploit of the British Navy at Taranto, General Metaxas writes:

"This formidable blow against the Italian Fleet fills us with joy." Gen. Metaxas asked that the admiration felt by the Greeks should be conveyed to Mr. Winston Churchill and has received, in reply, the Prime Minister's congratulations on the exploits of Greece during the first three weeks of the war.

INDIGNATION IN EGYPT

Ruthless Raids On Alexandria

CAIRO, Nov. 22 (Reuter).—Growing indignation is felt in Egyptian public opinion over the recent Italian air raids on Alexandria which resulted in a high death toll among the civilians.

The newspaper, Al Balagh, in a strong editorial, says: "The atrocious onslaught on Alexandria proves that the continual German and Italian radio claims that they do not mean to harm Egyptians are completely false. We do not recommend Egypt's immediate declaration of war but we do recommend that the Government should take decisive measures to endeavour to end such indiscriminate action."

The Government is tightening up air raid precaution arrangements all over the country.

ITALIANS DISMISSED

The Egyptian Cabinet yesterday approved the dismissal of six Italian judges and 130 Italian clerks belonging to the Mixed Courts in accordance with the military order prohibiting co-operation with enemy subjects.

An Athens message states that the latest reports from the front indicate that the Italians are also threatened at Argirokastro.

The brilliant Greek flanking movement east of the latter town may succeed in cutting off that important Italian base from communications with Eastern Albania and placing all Italian positions along the coast in the Epirus sector in jeopardy.

Under threat of this encirclement, the Italians are retreating to the north.

GENERAL EVACUATION?

Greek observation posts overlooking Koritza have seen a long Italian column, moving out of the town along the road leading north to Pogradetz, which may possibly indicate a general Italian evacuation of Koritza.

Everywhere, the Greeks are pressing home their advantage. They are advancing upon the disorganised Italian columns along the Albanian ridges, which are enveloped in rain and mist.

The Greeks see nothing at present to prevent the Italian retreat from turning into a rout.

WEATHER FAVOUR GREEKS

The weather, together with the present patrolling by British and Greek aircraft and the intensive bombing of Italian aerodromes in Albania, seems to have robbed the Italians of air support, which hitherto has been checking a more rapid Greek advance.

Italian war material captured in the Western Desert is now being used against the Italians in Albania. British booty in Egypt, including munitions and arms of all kinds, has been rushed across to Greece where the Greeks have lost no time in using it with poetic justice to charge their guns against the Italians.

role in regard to Turkey have any foundation in fact.

On the contrary, President Inceun again recently affirmed the friendly character of relations between the two countries.

SAIGON DEVELOPMENTS LINKED WITH VIENNA

CHUNGKING, NOV. 22 (REUTER).—CHINESE INTEREST HERE IS ABSORBED IN DEVELOPMENTS IN FRENCH INDO-CHINA.

Reports of Japanese preparations to land troops in Saigon have aroused great interest and observers are watching closely the attitude of the United States and Britain.

Well-informed observers link Saigon developments with the conversations at Vienna. They cannot believe that Italy invaded Greece without previous approval by Germany.

Before Germany actively participates in the Balkan war, she is busily occupied trying to reach an understanding with the other Balkan Powers, particularly with Soviet Russia.

In the hope of preventing Britain from concentrating her efforts in the Balkans, observers think Germany is believed to be trying to persuade Spain to launch an attack on Gibraltar and Japan to move against Singapore.

Observers here do not believe that Japan will be so reckless as to attack Singapore and the Dutch East Indies without awaiting the outcome of the Balkan fighting.

Japan it is thought will therefore seize Saigon to secure a base for further southward expansion in the event of subsequent European developments favouring such a move. In this connection it is interesting to note Japan's reported peace offensive.

TO SATISFY GERMANS

It is thought here that these reports are circulated by Japan partly in an attempt to satisfy the German wish for an early settlement of the Sino-Japanese conflict, partly to give an impression in Washington and London that a further appeasement policy in the Far East might be profitable, partly to create a misunderstanding between China and Foreign Powers and also between Chungking and other elements in Free China, and partly to satisfy the internal desire for an early peace in Japan.

Chungking, however, has already announced its determination to carry on the war of resistance until a just and honourable peace is secured.

STRENGTH OF THE BRITISH COMMONWEALTH

S.A. "GEARED UP" IN HER WAR EFFORT

LONDON, Nov. 22 (Reuter).—The sympathy and admiration with which South Africa is watching the Battle of Britain was stressed by Mr. S.F. Waterson, High Commissioner for South Africa, broadcasting from London last night.

Mr. Waterson added: "My countrymen and women, in their comparative safety, envy you your privilege of being in the front line of the conflict in which we are engaged today."

He emphasised that South Africa was "geared up" to contribute all she had in men, money and materials for the Empire's war effort.

Mr. Waterson concluded by saying that the spontaneous outpourings of personal offerings from South Africa demonstrated that the strength of the British Commonwealth "rests not upon written pacts or political arrangements, but upon true community of ideas."

AERIAL BATTLE IN LIBYA

Big Enemy Formation Routed By R.A.F.

CAIRO, Nov. 22 (Reuter).—In an aerial battle in Eastern Libya yesterday, 15 British fighters shot down ten out of 60 Italian planes while the British sustained no loss or damage, says an R.A.F. communique.

Taranto and other Italian ports had fresh visits from British reconnaissance planes.

During the nights of Tuesday, Wednesday, extensive British raids were carried out in Albania. At Tirano, aerodromes and hangars were set on fire and much damage was caused; at Durazzo direct hits were obtained on wharves and harbours.

During the same and preceding nights the R.A.F. kept up an interrupted raid on Asaba, the Italian port in Eritrea causing severe damage.

R.A.F. RAID ON DUISBURG

Strategic Nazi Port Bombed For Hours

LONDON, Nov. 22 (Reuter).—Duisburg-Ruhrort, which was chosen for the main thrust of Wednesday night's R.A.F. offensive, is the largest river port in the world.

The port is a strategic point of critical importance and is the main intermedary in the Ruhr between rail and road, waterways and the bridgehead of the whole industrial area on the right bank of the Rhine.

A serious raid like Wednesday night's could not fail to destroy indispensable raw materials.

The raid continued for many hours, especially heavy bombs being used. Pilots report that there were great concentrations of anti-aircraft guns, so they kept low, below artillery range and in better view of their objectives.

One pilot concluded his report of the damage and fires with the waggish comment: "I happened to consult my Baedeker before we left for Duisburg. It said that the trip round the docks is worth while—we found it so."

YANGTZE RIVER OPERATIONS

SOMWHERE IN EASTERN HUPEH, Nov. 22 (Central).—Two Japanese troop transports on the Yangtze River were recently sunk due to action of Chinese mobile artillery units which have become increasingly active lately.

On Nov. 17, Chinese artillery units shelled and scored direct hits on a Japanese transport in the vicinity of Wuhsueh in south-eastern Hupeh. The vessel, which was carrying on board troops, arms and provisions, was sunk after having been severely damaged.

Another Japanese vessel, the Nishimi Maru, anchoring off Hsiao-chikou north of Kiukiang met a similar fate at the end of last month following a concentrated Chinese artillery bombardment.

BULGARIA'S CLAIM ON GREECE

SOFIA, Nov. 22 (Reuter).—Close collaboration with Germany, Italy and Soviet Russia was advocated by speakers in the National Assembly yesterday.

Both Majority and Opposition speakers approved of the Government's foreign policy and there was unanimous support for revisionist claims including that for an outlet to the Aegean Sea territory.

LINDBERGH AGAIN

NEW YORK, Nov. 21 (Reuter).—The busy appeaser who would surrender voluntarily his sword even before it is demanded is how Colonel Charles Lindbergh was described by Mr. Harold I. Ickes, Secretary of the Interior, in a speech.

Denouncing "native fascist groups" as one of the four subversive groups harboured by the United States, Mr. Ickes added that in their ranks "one may even discover such an individual as Colonel Lindbergh."

DEMONSTRATION IN MADRID

CESSION OF BASES TO UNITED STATES

MADRID, Nov. 22 (Reuter).—Students here demonstrated in the streets as a mark of satisfaction at the Uruguayan Legation's denial of the report that Uruguay is negotiating the cession of bases to the United States.

JAPAN'S STRANGE
CONTRADICTIONS

THE WITHDRAWAL of Japanese troops from South China coincides with the presentation of peace terms of a liberal character. The manner in which these proposals are presented are in strange contrast with the professed intentions of the Japanese Government to have no dealings with the Generalissimo. If the latter does not accept them, dire pains and penalties are threatened and yet the withdrawal of the armies would suggest that it will be more difficult than it was before to carry out these threats. There is a strange contradiction here between words and acts. It is obvious that the Japanese now realise the hopelessness of the task they undertook in 1937. The conquest of China is a dream that recedes further and further into the background. The prospect in China is more in the nature of a nightmare than a cherished dream. China cannot be bombed into submission, neither can it be cajoled into an agreement that would deprive her of full sovereignty. The idea of treating China as a subject state from which raw material will be drawn, created by a population restricted to that task, and as a market in which only manufactured goods from Japan will be disposed of, must yield to something quite different.

IT IS NATURAL that Japan should seek this form of co-operation, but it is still more natural that China should refuse it. China has her tradition as a sovereign state, existing for centuries, to uphold and any attempt to deprive her of her significance as such must necessarily increase her determination to resist the attempt that is being made to destroy her. There is something far more than mere markets and territorial ownership behind this struggle, but it is just this spiritual background that Japan seems to be incapable of appreciating. She is so wrapt up in admiration of herself, and so excessively confident of her own superiority in all fields, that she cannot understand why China—not to mention other powers—does not recognise her claims. This new order in Asia means to China that the supreme control of the Far East passes into the hands of the Japanese, and the independence of other states disappears altogether.

TO JAPAN, it means that this hegemony is right and proper, since her past achievements, her spiritual strength and her high moral purpose entirely justify her in making and establishing this claim. If we have learned anything in recent years, however, it is that totalitarian states are in the habit of putting a higher value upon themselves, upon their motives and upon their powers than foreign nations are willing to accept. In addition to this is the fundamental clash of ideals. Japan is determined to make her ideals prevail, and the absence

BOMBS DROPPED MOSTLY
IN SOUTH ENGLAND

LONDON, Nov. 22 (Reuter)—Air activity over this country last night was on a small scale, states an Air Ministry communique, which adds that aircraft dropped bombs at several places in East Anglia and widely separated places elsewhere, mostly in the southern half of England. These caused little damage.

In the small hours of the morning activity was resumed on a slightly larger scale and in these raids also very little and very few casualties have been reported.

of serious opposition to her efforts until the last three years have confirmed her in the righteousness of her cause. The policy of appeasement and the preoccupation of the powers in other parts of the world gave Japan the impression that her expansion was the result of her inherent strength and was justified on the ground that she like Italy was a youthful virile nation and therefore her advance could never be thwarted.

WORLD AFFAIRS have conspired to place Japan in an entirely false position, and the fact that she does not recognise the dangers that threaten in the future, and that the position is so rapidly changing means that she may be carried into a situation that is perilous to herself. The time of appeasement is past, and now that war has become the main interest of the great powers—there is growing up a feeling that injustices must be corrected everywhere and overwhelming ambition curbed. The United States has made it quite clear that she is building up colossal forces—naval, military and air—for the purpose of playing a part in the Far East, commensurate with her status as a great nation. The recent destruction of the Italian battleships in the Mediterranean does much also to relieve the British fleet of a heavy burden. With such obvious facts in front of her, Japan must be wondering how her two Axis partners are going to do anything to assist her in her time of trouble. It is certainly not a very pleasant prospect for any Japanese statesman to contemplate. (Contributed)

WONDERFUL GLADIATORS

CAIRO, Nov. 22 (Reuter)—The wonderful manoeuvrability of the Gladiators and the skill of their pilots defeated what were overwhelming odds, said a Flight Lieutenant who took part in the aerial battle in Eastern Libya yesterday.

The Officer continued: "When the fight started the Italians had all the advantage of sun, height and numbers."

He described how the British fighter force evaded the first attack and then assumed the offensive, large dog-fights developing.

The battle took place in full view of the British troops in the desert below and as successive planes spun to the ground the soldiers crawled out of their shelters and cheered delightedly.

Europe's Food Supply Will
Hinge On Nazi Needs

WASHINGTON, Nov. 22—Available information showed today that if Germany is generous this winter, Europe may be hungry but will not starve.

Should heavy requisitions be made in conquered territory to feed the German army and the homeland, however, millions will be in dire straits before spring, information gathered from many sources here indicated.

In any event vitality will be lowered, fats and vitamins lacking and food luxuries nonexistent throughout the continent.

LATEST SURVEYS

The latest surveys by the agriculture department, released today, estimated that the 1940 European wheat crop, exclusive of Soviet Russia, would be 20 per cent below that of 1939, and about 11 per cent under the 1933-37 five-year average.

Another report estimated that Japan's 1940 rice crop would be about 2,500 million pounds under actual requirements and that a large part of the 1940-41 shortage would have to be met with imports.

FRANCE IN WORST POSITION

Unoccupied France appeared to be in the worst position. With 5,000,000 refugee non-Frenchmen to feed in addition to her own refugee population of 800,000 living in camps, the resources of this agriculturally poorest part of France will be severely strained. Efforts to obtain American assistance in one of the delicate tasks of France's new ambassador, Gaston Henry-Haye, he has graphically painted the distress of his country, but there had been no indication that the United States would remove combat zone restrictions or seek to persuade Britain to lift the blockade for food ships.

TEST FOOD SHIP

Henry-Haye has publicly suggested that America send a test food ship to determine whether the supplies will go directly to French people or are diverted to German hands. Such a test, even if the

The speaker went on to refer to the recent exploit at Taranto.

"In the Mediterranean," he said, "Admiral Sir Andrew Cunningham had done everything in his power to persuade the Italian Fleet to fight, but could get little satisfaction. So on Nov. 11, they went into a night operation against Taranto and in one blow the whole balance of sea-power in the Mediterranean was altered."

"I read the news and crept quietly away to think about it. Attacks on ships in enemy harbours have always been a great problem and the question has always been how we can best press home an attack."

"The torpedoes dropped by aircraft are the same as the torpedoes fired from a ship. They run through the water and it is necessary to see that they keep their course. They have to be aimed very carefully and the aircraft has to go at a slow speed, flying just above the surface of the sea. It is at that time that they place themselves in the range of enemy gunfire."

NOT EASY PLACE

The speaker described the harbour at Taranto and stated that it was not an easy place to attack, as the island and the mainland were studded with anti-aircraft batteries in addition to a balloon barrage.

Towards midnight, the speaker went on, the naval vessels approached the harbour. Reconnaissance reports had shown clearly the position of the enemy ships in the outer harbour. During the afternoon and the evening the aircraft crews had been hard at work, making final adjustments to their machines and engines and making sure that everything was in flying trim and fixing the torpedoes in place. One false adjustment would mean that the torpedo would run off its course or dive to the bottom.

The speaker then gave a graphic picture of the moment when the aircraft took off from the carrier. "The pilots were standing by their machines and at last the order came to start up. One member of each crew had been leaning on the starting handles and in a flash, the platform of the flying deck was transformed into an inferno of roaring engines."

DEAD INTO WIND

"Then came a short period while the engines warmed up and the carrier then heeled over to move

dead into the wind and increased its speed.

"The deck officer gave the signal—the great moment had come. One by one they followed each other in quick succession and in a few moments numbers, fighters and torpedo machines were climbing steadily into the night and heading for Taranto."

"The bombers soon got busy and dropped their bombs in trying to draw the enemy's fire. At the same time, the leader of the torpedo-carrying planes gave the signal and down they went, with engines throttled down and their flying wires screaming as they rushed through the air."

"Down, down and at 200 yards the thought was 'Shall we drop the torpedoes while the going is good or hang on?' They hung on and at 100 yards the torpedo is released and the pilot turns his machine into a steep climb."

"The torpedo plunges in and with a streak of bubbles heads straight for the target, while in the meantime, the pilot is trying to get out of the enemy fire. The observer watches and yells 'There she goes—it's a hit' and from all accounts, that was the popular cry at Taranto—that night that gave the Navy a chance of going into the attack—a night that altered the balance of sea-power."

MEMORIAL SERVICE
FOR FATHER LEBBE

Under the leadership of Dr. H.H. Kung, Vice-President of the Executive Yuan, and General Feng Yu-shiang, Vice-Chairman of the National Military Council, a number of Government officials will hold a memorial service on Nov. 29 for the late Father Vincent Lebbe, commander of the North China Field Service Corps under the National Military Council, who died near Chungking last June.

Generalissimo Chiang Kai-shek, it is understood, has appointed General Shang Chen, Director of the Main Office of the National Military Council, to officiate at the service.

Father Lebbe, a naturalised Chinese citizen of Belgian birth, was formerly the managing-director of the influential Yih Shih Pao in Tientsin.

After the outbreak of the current hostilities in 1937, he was appointed commander of the North China Field Service Corps, and rendered valuable service in south Shansi, north Honan and west Hopei. (Central News)

BELGIUM

Now on a bread ration of one-half pound to the individual daily with expectation that this will be cut to one-quarter pound. All food products are short and are rationed, according to information reaching the Belgium legation.

Ninety per cent of the chickens have been slaughtered on German orders as "non-economic" and cattle have been slaughtered to turn grazing land into grain production in an effort to increase production which normally is from one-fourth to one-third of requirements. Reserve stocks of wheat were concentrated in such cities as Antwerp and much of it was sent to England when the German invasion began.

A report as of Sept. 12 indicated there would be no more coffee and little butter a month from that date. The German army of occupation has been allotted a bread ration three times that of Belgian civilians.

DENMARK

Reports indicated Denmark will be through the winter comparatively well, but slaughter of livestock, because of lack of fodder will impoverish the country.

Butter production in most countries in 1940 will be lower than in 1939. Denmark, the Netherlands, northern France and Belgium all are faced with feedstuff scarcity and a consequent loss of cattle.

Germany has apparently increased butter production since the beginning of the war by restricting consumption of whole milk and it is stated that this will largely make up for former imports of 34,000,000 pounds a year, the department said.

The greatest problem Europe faces is that of distribution of available supplies, a responsibility which falls on Germany for the larger part of the continent.

STARTLING DISCLOSURES IN U.S. WHITE PAPER

PLAN TO RE-ORGANISE NAZI INDUSTRY IN UNITED STATES AFTER THE WAR

WASHINGTON, Nov. 22 (Reuter).—The activities of the German Government in the United States "were not devoted solely to propaganda or so-called military espionage. Rather the German Government had engaged in a far-sighted policy of penetrating the economic structure of American and Central and South America over a number of years."

These are the conclusions reached by the Congressional Committee to investigate un-American activities under the chairmanship of Senator Martin Dies.

The Committee has caused something of a sensation here by publishing its so-called "White Paper" on propaganda and espionage by German agents in the United States.

FIRST IMPRESSION
The first impression here is that the report will react very unfavourably on German-American diplomatic relations.

Dealing with the activities of the Trans-Ocean news service which is described as a propaganda agency headed by Dr. Manfred Zapp, the report says: "This organization could also, with the minimum suspicion, engage in espionage activities."

Dr. Zapp took a deep interest in the manner in which the United States handled its diplomatic relations with Japan and in fact, at times he not only gave advice to the representative of the Japanese Government but he also indicated to his own country certain steps that might be taken to aid the country in its handling of diplomatic affairs.

ALLEGED STATEMENT
The report then quotes the following alleged statement by Dr. Zapp in a letter to Japan: "I think that if you show the Americans definitely a strong, defensive cold shoulder during your negotiations this will impress them."

On written orders from the German Charge d'Affaires the report adds, Dr. Zapp offered the news service of "Trans-Ocean" to Adrien Arcand, the "Fuehrer" of the Canadian National Unity Party who is now interned in Canada.

The Dies Committee seized in the files of the Chemical Marketing Company of New York, plans entitled "The Organization of German Industry in America after the War." This plan called for a great banking institute to underwrite and support the financing of German industrial and trade activities.

DEFINITE LINK
This, the Committee felt, showed a very definite link with German industrial life by providing that activities in the United States should be directed from a bureau which would be established in Berlin.

The files kept by Dr. Zapp showed that Germans in America have their own Nazi Party unit meeting regularly under the leadership

of Dr. Friedhelm Draeger, Vice Consul in New York.

The report includes a number of letters written by American citizens, all ending with "Heil, Hitler!"

INFORMATION BUREAU

The office of the German Railway Information Bureau in New York is also mentioned together with the German Library of Information. The first is credited with an expenditure of \$200,000 yearly and the second with over \$341,000.

Correspondence cited between Zapp and a Japanese named Jun Furukawa, seems to show that Berlin's hope of keeping the United States neutral lay in making diplomatic relations between Washington and Tokyo as awkward as possible.

The government in Washington, and indeed all America, has never forgotten the vast web of espionage and sabotage spun in years before America entered the last war by Herr von Papen, Boy-Ed and their agents.

ABUSE OF IMMUNITY

Some Washington observers feel that these unpleasant memories are going to be revived by plans such as those revealed yesterday to re-organise German industry in America after the war and by the charge that diplomatic immunity has enabled the German Embassy here to carry on Nazi propaganda.

In a latter passage, "the White Paper states that documentary evidence exists to show that Trans-Ocean has been the chief propaganda weapon of the Nazi State in Guatemala, Mexico, Cuba, Ecuador, Argentina, and Brazil. The evidence indicates that the material sent from Germany to the South American countries is violently anti-American."

CONVOY MOVEMENTS

The report relates how a New York newspaperman, James Edmonds, was engaged on espionage on behalf of Germans in the United States while simultaneously keeping the British, French, and American authorities informed.

The German representatives under whom Edmonds worked were anxious for information on British convoys and shipments of British and French purchases in the United States.

According to evidence Edmonds said that his British and French connections helped him to fix reports of convoy movements which looked authentic but were actually useless.

"VICTORY IS ASSURED"

KING'S WORDS RE-ECHOED BY WHOLE COMMONWEALTH

Two phrases used by the King and the Prime Minister yesterday seemed to epitomise how we feel in London and in Britain and in the whole British Commonwealth of Nations today," said MR. CYRIL LAKIN, political commentator in a talk on international affairs in London yesterday.

"I am confident," said the King, "that victory is assured"—we feel an inspiration in the splendour of our moral inheritance," said the Prime Minister.

"The whole Commonwealth re-echoes these words today. We have confidence in our leaders as they have confidence in us and I wonder if that confidence is felt in any of the chained gangs of the Axis people."

"Hungary is the latest dupe to hold out her wrists to the Nazi gangsters and now General Antonescu of Rumania is going to sacrifice his country by signing on the dotted line."

"What is interesting in these facts is the purpose behind them. You will remember Herr von Ribbentrop's words of peace when he spoke of Hungary. Now Field-Marshal Goering's newspaper lets the cat out of the bag when it describes the pact as not only economic but military."

STILL DOUBTS

"There are still doubts in the minds of M. Stalin and M. Molotov as to the value of co-operation with the Axis. When German troops go into Hungary now the Soviet will have German troops all along its frontier from the Baltic to the Black Sea. By the same token Yugoslavia will also be faced with German troops along the 900 miles of its frontier."

Mr. Lakin referred next to the magnificent fighting of the Greeks and said that capture of Koritza had enabled the Greeks to cut the only natural road leading out of Albania and that the mountainous nature of the country would make it extremely difficult for the Italians to reinforce their flanks.

"We must remember, however," as the Prime Minister said yesterday, "that there are two wars going on in the Mediterranean," said Mr. Lakin. "We are defending Greece in Egypt just as much as we are helping them in Epirus."

Mr. Lakin next dealt with France and said that one of the things that deserves to be watched was the steady evolution of French public opinion which had

undergone a change since June last.

NOT REAL ENEMIES

"Although the Vichy Government is still pursuing its action against the so-called war criminals of France it is a matter that is of interest to nobody at the moment. They have sent General Gamelin, M. Blum, M. Mandel and a few others to prison but the French people cannot be persuaded that the prisoners of Riom are the real enemies of France."

"The real enemies of France are the Germans and no amount of propaganda will convince the population that the German invaders deserve their loyalty," Mr. Lakin.

Mr. Lakin went on to say that an example of this was seen in what was happening in Lorraine where the Germans were deporting men, women and children to Poland or to Germany and turning them out of their homes which indicated that Herr Hitler is determined to incorporate in the Reich the radically purified parts of Lorraine which had been purely French for hundreds of years.

EAT OUT OF HANDS

Mr. Lakin also mentioned another example of German insincerity with regard to the question of French war prisoners. Herr Hitler was determined to hang on to these war prisoners and hold them as hostages so that France may, as long as he wishes, eat out of his hands. None of these war prisoners are to be released except the severely wounded or the hopelessly sick. The future of these men was indeed fearful and uncertain.

"Small wonder," that French opinion is becoming more and more festive," said Mr. Lakin. "Every civilian in France today is praying for the day of British victory when France can again be free."

REPORTED CAPTURE OF KORITZA BY GREEKS

Continued From Page 1

It is understood that the German Charge d'Affaires had informed the Turkish Government a few days ago that Germany did not intend to take any action whatever concerning the Italo-Greek conflict. Unofficial Turkish circles, however, are not inclined to attach too much importance to this assurance. The Turkish Government is taking further measures to adapt the machinery of the Government to the necessities of the country which is practically on a war footing.

ANKARA REJOICING
ANKARA, Nov. 22 (Reuter).—News of the latest Greek successes caused rejoicing in Ankara.

KORITZA ABANDONED BY ITALIANS

ATHENS, Nov. 22 (Reuter).—Koritza has been abandoned by the Italians and Greek advance detachments have entered the eastern suburbs where they are marking the main force arrives. Having cut the road out of Koritza to the south, the Greeks are now mopping up to the north-west of the city.

Italy's key supply base at Koritza in Albania has fallen. General Metaxas, Prime Minister of Greece, announced the fall of Koritza from the steps of the Greek headquarters, states a London message.

Italian artillery is covering the retreat of the Italian troops along the Pogradets road with Koritza still within their range.

Greek forces have gained further successes during the day throughout which the struggle continued on the whole front, states a High Command communiqué.

FOOD DEPOTS TAKEN

Fifteen guns (including seven heavy guns and four anti-aircraft guns), several scores of machine-guns, many mortars and material of all kinds fell into the hands of the Greeks who also took some food depots and fuel stores.

Greek aircraft carried out successful reconnaissance and bombardments on the battlefield. An Italian High Command communiqué states that Italian covering troops composed of two divisions which were deployed on the defensive had been withdrawn from Koritza after 11 days of fighting on a line west of the city.

The Italian communiqué admits that their forces suffered considerable losses but states that the Greek losses were equally severe. On all fronts the Royal Air Force and the Greek Air Force had co-operated with the Greek land forces.

NOT YET ROUT

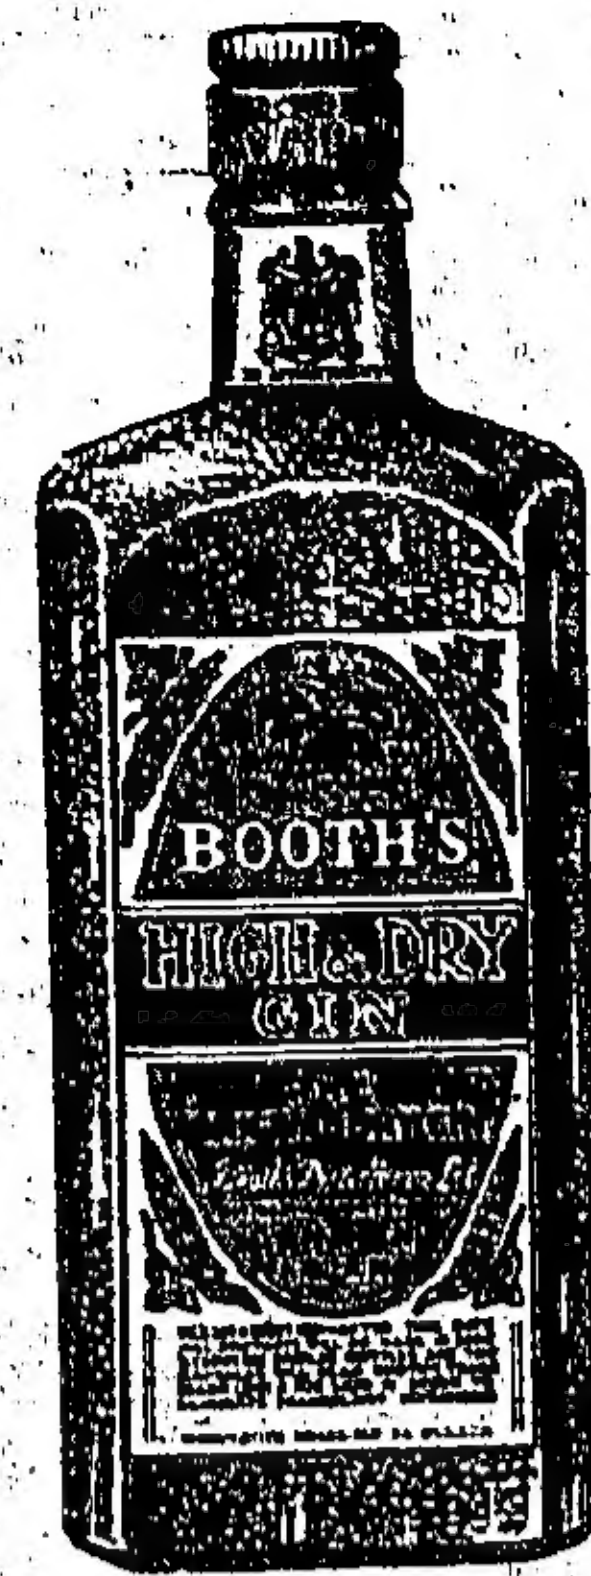

It is considered a mistake, however, to assume that the Italian defeat has yet become a real or accepted as truth the reports that enormous Italian forces are likely to be cut off.

The Italian Air Force has been less active in the past few days probably because it met with more opposition from the Greek and British Air Forces than was expected but should the Italian Air Force come heavily into play it might be impracticable for the Greeks to carry the offensive deep into Albania as the terrain favours defence.

For the same reason the Greeks, with persistence, should be able to keep their footing in the region and consolidate what is universally acknowledged to be a great strategic victory.

not the British statesmen told at Munich that when he wanted Czechoslovakia that he had no other territorial claims in Europe? Did he not then destroy Czechoslovakia, take Danzig and divide Poland between himself and Russia?

TINGE OF DOUBT

"Even my trustful nature," said Mr. Stead, "cannot suppress a tinge of doubt with regard to this latest assurance of peace. Is it not possible that when they speak of peace in Europe it includes claims on the French colonies, on the Dutch colonies and on the Belgian colonies? I cannot claim to be in Hitler's confidence though I can claim some knowledge of his methods and the working of his mind."

"I think Hitler wanted to restore the fate of his friends in his power. That is why he wanted them to go to him in spite of the fact that he had failed to invade England, had been unable to prevent the re-election of the President of the United States, to counter the Greek resistance to Italy and the smashing of the Italian Fleet at Taranto."

"I think the heavy raids on Coventry and the provinces in England were made to impress these people that we have broken our war efforts. That, however, he will not do and he will never succeed in doing."

PEACE OFFENSIVE

"If I read his mind rightly, he will launch a grand design in a new peace offensive. He wanted to do this just before the Presidential election but he could not bring it off in time."

"If Hitler has read history," continued Mr. Stead, "it is not hard to see where he got his idea of a grand design. History tells us that one of the most notable French Kings was Henry IV. He was a great monarch and was helped by a still greater minister with whom he worked out grand designs for the mastery of Europe. But they set up their principles on right going before might."

"The details of this grand design were that 15 States of Europe were to be included in a supreme council or senate. These States were to be provided with contingents of armed police in order that the people might be persuaded rather than that they should be forced. Arms were to be used only as a last resort."

FAILED TO UNDERSTAND

"If Hitler has heard of this grand design, he failed to understand two of its principles. The first was that right goes before might and that force could only be used for keeping the law. In Hitler's designs might goes before right and brutality is used in order to obtain mastery over the world."

"The people of Hungary can hardly fail to realise how badly their present leaders have fallen below the standards of their former leaders. The ancient oath of Hungary has now been obliterated and her Prime Minister

MEMORIAL SERVICE

FOR "MOTHER OF WOUNDED SOLDIERS"

Chungking women organisations held a memorial service for the late Mrs. Chow Chiang Chen, known as "Mother of Wounded Soldiers," who passed away at Hsinking, west of Chungking, on Oct. 5.

About 500 people came to pay respects and there were many floral tributes.

Miss Chang Ai-chen, representative of the Women's Advisory Committee of the National Association for the Promotion of the New Life Movement, recounted the life of Mrs. Chow. Others who spoke were Mr. Chang Chi, member of the Kuomintang Central Supervisory Committee, Mr. K. C. Wu, Mayor of Chungking, and Mr. Chen Fang-hsien, representative of the Chungking Municipal Kuomintang Headquarters, all eulogising her conscientious efforts in attending to wounded soldiers and war orphans.

SERVED IN HOSPITAL

Mrs. Chow who came from a well-to-do family, volunteered her service in the Fifth Military Hospital in Hankow, in Sept. 1937, after the outbreak of the Sino-Japanese hostilities. From Hankow she proceeded to Ichang where she served in an army hospital. Once the hospital, through some displacement in remittances, had no money to feed the men. She came to the rescue by organising a concert from which several thousands of dollars were collected to tide over the difficult period.

Later she escorted over 100 war orphans up to Chungking. When they arrived there, she intended to return to Ichang, but the children staged a hunger strike, insisting she must continue to look after them. She was then appointed honorary superintendent of the Fifth Wartime Orphanage at Hsinking. The post was an honorary one because she refused to accept any remuneration.

All along her health was poor. But she would not stop working. She died at the age of 38. She is survived by her husband, Dr. Chow Ming-tung, German-trained physician, and a nine-year-old son. (Central News)

Pro-British Sentiment

NEW YORK, Nov. 22 (Reuter).—Pro-British sentiment is rising rapidly in France and many young Frenchmen are beginning to escape to join the British forces. General de Gaulle states the New York Times quoting French sources arriving here in the West Indies.

They declared that the Germans are doing everything they can to sabotage German industry and production. Sentiment in France was switching to British "thanks to German violations of the Armistice terms," they added.

Expanding Mutual Trade Between Britain, Brazil

RIO DE JANEIRO, NOV. 20 (REUTERS).—"AS LONG AS THE ENSLAVED NATIONS IN EUROPE ARE LOOKING TO THE BRITISH EMPIRE FOR DELIVERANCE AND RESTORATION, IT IS CLEARLY IMPOSSIBLE FOR US TO RELAX ANY MEASURES WHICH HAVE BEEN TAKEN TO GAIN VICTORY," declared Lord Willington at a banquet held at the floodlit Itamaraty Palace in honour of the British Goodwill Mission to South American countries.

He added: "We have already taken all possible measures to mitigate difficulties and it will be one of the major tasks of the Mission to discuss with your leading men ways of maintaining and

expanding mutual trade, not only in the present circumstances but in the happier days which will follow our victory."

Replying Dr. Aranha, Brazilian Foreign Minister, said that while Brazil was a neutral and wished to remain neutral, nevertheless "our neutrality does not preclude our public expression of sympathy for all peoples, like the British, who have contributed towards our formation and with which we hope in return to collaborate without the hindrances which the war imposes on the comity of the national."

ONE DESIRE

"Our one desire is to increase this association of interests which links Great Britain and Brazil. No nation has contributed so much as Great Britain to the formation of ideas on which the modern world is based."

"Today, Great Britain and her Empire are fighting in defence of this same conception of civilisation and of the interests created by this worldwide organisation."

S.P.C.A. FLAG DAY APPEAL

An appeal to all animal lovers to support the Flag Day organised by the S.P.C.A. today was broadcast from Z.B.W. last night.

The speaker said that unless the public respond generously to the appeal for funds, the Society would experience the greatest difficulty in carrying on which, continued the speaker, would surely be a disaster.

Concluding, the speaker said those who are unable to take the opportunity of Flag Day to contribute may send donations to Mr. Ralph Dorrer, Windsor House, No. 12, Des Voeux Road Central.

CATHOLIC NEWS & NOTES

SPECIAL DAY OF PRAYER: COVENTRY CATHOLICITY IN THE NETHERLANDS

Tomorrow, the last Sunday of the Church's year—since the liturgical year begins with Advent—is being observed by Catholics throughout the whole world as a special day of prayer. This is at the request of His Holiness the Pope who issued a special letter on the subject a few weeks ago. The objects of the prayer are three: Eternal rest for the souls of those who have died in the war; strength for those who survive and are suffering as a consequence of the war; and a petition to God that there may come on the world the blessings of a peace based on tranquillity, justice and charity.

Reports from London tell of the way in which people observed the last day of National Prayer in September. Although German bombers had ranged over the city all night until dawn on Sunday morning, the early Masses at all the churches were attended by large congregations.

In his sermon in Westminster Cathedral, which was broadcast throughout the nation, Cardinal Hinsley, Archbishop of Westminster, said:

"In humble, contrite spirit, relying on a strength greater than any force of earthly contrivance, we dedicate ourselves and our country anew to the accomplishment of God's will and the triumph of His cause."

In one riverside parish prayers and Mass were offered up in a bomb-shattered church, with part of the congregation kneeling in the open.

COVENTRY

Coventry, which has been so much in the news since it suffered so severely in recent air-raids, is a city that has long figured in Catholic history. Its abbey church, founded before the Conquest by Leofric, Earl of Mercia, and his wife the Countess Godiva (Godiva) was said to surpass all others in the land in magnificence.

The chapel contained a celebrated statue of the Blessed Virgin Mary, and in her will the Countess left to be hung about the neck of this statue "the circle of precious stones which she had threaded on a cord in order that, by fingerling them one after another, she might count her prayers; exactly—one of the earliest instances of the use of rosary beads."

Its fame in the later Middle Ages was chiefly due to the Miracle Plays, for one of the four great cycles of English Miracle Plays was performed in Coventry and took its name from that city.

Coventry now belongs to the diocese of Birmingham. It has therefore no Catholic Cathedral, but it has six parish churches, a convent of the Sisters of Mercy, and numerous Catholic schools and also hospitals and a home for crippled children.

No news has been published of the fate of any of these buildings; but as they are spread over various parts of the city it is almost inevitable that some should be destroyed.

SPAIN'S CHURCHES

Now that the news of destroyed churches in England is of daily occurrence, it is easier to appreciate the urgent nature of the work that has to be done in Spain, replacing the churches destroyed in the war in that country.

The rebuilding of 4,800 churches and 125 parishes is included in the programme of the Spanish Director of Reconstruction. Don Jose Moreno Torres, work is already under way.

More than half of the damaged churches were at least 50 per cent. destroyed. In addition to the ecclesiastical buildings in the towns which are now being rebuilt, there are numerous church edifices in the devastated region for which plans are under consideration. These include churches, chapels, seminaries and rectories.

Considerable subsidies have already been made, and the Cathedral at Burgos is undergoing repairs at a cost of 2,000,000 pesetas.

CATHOLICITY IN NETHERLANDS

The Dutch Radio recently paid a great tribute to the strength of Catholicity among the Dutch. It announced that the news which visited the country, for many have been surprised at the vitality of the faith in that country which was not considered in any way a Catholic country.

Out of a total population of approximately 5,000,000, about 3,200,000 were Catholics. In 1930 there were 3,800 priests in the country and a greater number of nuns. Catholic schools were very well placed; their favourable position was due to subsidies granted by the State. These subsidies were as high as 100 per cent. for elementary schools.

FIRST CHURCH OF CHRIST, SCIENTIST

31 MACDONNELL ROAD

Service on Sunday.

The subject of the Lesson Sermon in all Christian Science Churches tomorrow will be "Soul and Body." The Golden Text will be: "O bless our God, ye people, and make the voice of his praise to be heard; which holdeth our soul in life and suffereth not our feet to be moved" (Psalms 66: 8, 9).

Among others the following citations will be read from the Bible: "And Jesus lifted up his eyes, and said: Father, I thank thee that thou hast heard me. And when he thus had spoken, he cried with a loud voice: Lazarus, come forth. And he that was dead came forth" (John 11: 41, 43, 44).

The following citations will also be read from the Christian Science Textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "Jesus restored Lazarus by the understanding that Lazarus had never died. Man's individual being can no more die nor disappear in unconsciousness than can soul for both are immortal. A demonstration of the facts of soul in Jesus way resolves the dark visions of material sense into harmony and immortality. Man's privilege at this supreme moment is to prove the words of our Master: 'If a man keeps my sayings, he shall never see death.'" (Science and Health, Page 75, 428).

DEATH OF MR. JUSTICE R.E. LINDSELL

PUISNE JUDGE AND KEEN SPORTSMAN

His many friends, both in legal and sporting circles, will learn with regret of the death at the age of 54 of Mr. Justice Roger Edward Lindsell, the Puisne Judge, which occurred in Durban on Nov. 18. The late Mr. Lindsell was educated at Uppingham School and King's College, Cambridge, taking his M.A. degree in 1903.

In Oct., 1909, he passed his examination for the Colonial Service and was posted to Hongkong, arriving here on Dec. 31, as a Cadet. In 1910 he married Miss Elsa Molison at Christ Church, Canton.

THIRTY YEARS

During his 30 years in the Colony, the late Mr. Lindsell served variously as Acting Assistant Registrar General, Acting Police Magistrate, Deputy Registrar of the Supreme Court, First Police Magistrate and Coroner, Acting Assistant Attorney General and Puisne Judge.

At the time of his death he was President of the Kowloon Cricket Club, Hongkong Lawn Bowls Association and Honorary Vice-President of the Hongkong Badminton Association. He was an expert bridge player, and a keen member of the Amateur Dramatic Club of which he was President for many years.

The late Mr. Lindsell leaves a widow, three sons (two of whom are in the Civil Service in Africa), and a daughter in Baguio, to whom the greatest sympathy will be extended.

CHIEF JUSTICE'S TRIBUTE

The Chief Justice, Sir Atholl MacGregor, heard of Mr. Justice Lindsell's death midway through a murder case yesterday morning, and before adjourning for luncheon, he said:

"Before we formally adjourn I have a very sad duty to perform as news has just been received of the sudden and unexpected death of my Brother Lindsell who had been Puisne Judge here for so many years."

I propose to make a formal and fuller mention of this very tragic event on Monday morning before the ordinary sitting of the Court so that both branches of the profession may be represented to pay tribute to him, but I think that it is only right that here and now I should, on behalf of you here—members of both branches of the profession, the Police, the Prison officers, the staff of this Court, and members of the Jury and public—extend our very great sympathy to Mrs. Lindsell and Miss Lindsell and to the late Judge's sons who are in the public service in Africa.

Mr. H. Somerset Fitzroy, Mr. J. P. Murphy and Mr. J. M. D'Almeida Remedios, who were present, associated themselves with his Lordship's remarks. The flags of the Hongkong Club and the Hongkong Cricket Club were flown at half-mast.

ITALY FACES NUMBER OF URGENT PROBLEMS

LONDON, Nov. 22 (British Wireless).—The economic situation in Italy, although giving no justification for the impression that the country would immediately collapse, certainly suggests that Italy faces a number of urgent problems.

Italy can supply herself more or less with a vegetarian staple diet of the country—and three meatless days are no special hardship to the population.

CANADA'S WAR EXPENDITURES

Canadians Urged To Cut Individual Expenses

OTTAWA, Nov. 22 (Reuters).—Canada's spending for war purposes was probably more than one fifth of the entire nation's income of over \$1,000,000,000 a year, declared Mr. J. L. Halsey, Finance Minister, in the Canadian House of Commons yesterday.

Mr. Halsey gave warning that Canadians would have to restrict individual expenditure not only to meet war taxation and help to subscribe to essential war loans, but to curtail their demands for commodities which competed for labour and materials with war production.

Since the outbreak of war, he said, \$56,000 had been added to industry and 200,000 to the armed forces.

Mr. Halsey expressed confidence in "our ability to match and surpass the enemy's effort once our people are aroused."

The wheat harvest is seriously insufficient but the maize harvest is exceptionally good and loaf is now generally made of the mixture, which though of a rather poor quality is unrationed. The potato crop is normal.

Fats are rationed and coffee when procurable is "black" and the markets very expensive. Civilian soap is rationed and of the poor quality, while there is a great shortage of clothing, the quality of textiles being very bad. Warmth in the winter is going to be a special problem.

Civilians are being allowed 20 per cent. of last winter's requirements, heating is not to start until Dec. 1, and a decree is issued that the temperature of the room must not be higher than 61 degrees. Italian coal supply of 12,000,000 tons annually must come by land from Germany, needing roughly 70 trains daily, whereas in peace time, 8,000,000 of this amount came from Germany by sea.

Feeding stuff for cattle and fertilisers are scarce and for these Italy has to compete with her Axis partner with Germany. The effect there of bad bread, poor soap and cold rooms may at least be discouraging to the population, whose enthusiasm for the war is not thought to be remarkably high.

Dispute Referred To Shanghai Office

TIENTSEN, Nov. 22 (Reuters).—Negotiations regarding wages with employees of the Asiatic Petroleum Company's Hotung Installation which was interrupted by a strike, have now been resumed, the employees having agreed to return to work pending the outcome of the parties.

The dispute was referred to the Shanghai office of the A.P.C.

WOOD OIL EXPORTED BY BURMA ROAD

An average of a hundred tons of Szechuen wood oil per day has been exported from Chungking by trucks to Rangoon since the reopening of the Yunnan-Burma Highway on October 14.

This large daily export caused an increase in October of 3,540 quintals of tung oil, as compared with the total quantity sent out from the wartime capital during September.

According to an official of the Szechuen Tung Oil Trading Company, no less than 12,000 tons of wood oil has been purchased by the company from June to the end of last month. The total tonnage is expected to reach 15,000 by the end of the year. (Central News).

CHINSHA RIVER NAVIGATION

AMBITION PLAN FOR REOPENING

CHUNGKING, Nov. 22 (Central).—An ambitious plan for the opening of the Chinsha (Gold Sand) River to navigation has been mapped out by the Ministry of Communications and will be put into execution in the near future. The river, which traverses through Szechwan, Yunnan, Szechuan and Chinghai, is being divided into five sections for dredging purposes.

Dredging of the first section from Yiping in Szechwan to Mengku in Yunnan, a distance of 500 kilometers, is to be started immediately, for which purpose an engineering office has been set up at Pingshan and a sum of \$2,000,000 will be required.

MOSCOW, Nov. 22 (Central).—An exhibition devoted to Modern China has opened in the Leningrad Museum under the auspices of the Academy of Sciences of the U.S.S.R. Great public interest is shown in the collection of anti-Japanese placards, leaflets, newspapers, issued in Japanese-occupied towns, and a series of rare photographs, including one of Buddhist monks undergoing military training in Japan and another of a Chinese partisan detachment.

THOSE WHO KNOW SAY,
IT'S THE SCOTCH.

NORWAY INVASION WAS PLANNED FOUR YEARS

The Nazis pretence that they were forced to invade Denmark, Norway, Holland and Belgium to protect Germany from the aggressive designs of the Allies is exposed by an article by Per Nystrom in the Swedish newspaper Godesborgs Handels-Och Sjöfarts Tidning.

Nystrom says that the practical work for the overrunning of Norway began as long ago as 1936, or perhaps even before then. He goes on to say:—

In the autumn of 1936 preparations had gone so far that the then War Minister of Germany, General von Blomberg, thought the time ripe to find out what bases could be set up.

Gaining the permission of the Norwegians for a pleasure trip during October (when the autumn storms had already begun) he visited a number of places.

With him were twenty higher military officials.

Attention was attracted by the fact that the Minister's pleasure boat sailed into Narvik, permission to visit which had neither been asked nor given.

The notabilities of the little town, flattered by the visit, arranged a social trip for the German officers along the iron-ore railway.

The Norwegian General-in-Command, Erichsen, thought this reconnaissance worthy of a report.

extracts of which later appeared even in Swedish newspapers.

From that moment the German Fleet began to carry out systematic exercises near Norwegian territorial waters, and every now and then entered actual Norwegian territory.

In the spring of 1937 two light cruisers passed without permission, and without a Norwegian pilot, through Kamsund, a difficult strait between Hangesund and Karmoy.

During this summer Mittels Pantenburg, a well-known German military writer and engineer, showed such an interest in the harbour of Narvik that he was expelled, despite the warm recommendations he held from Colonel Sundlo, commandant of the town.

Japanese Troop Movement In S. China

PATRIOTISM OF CHINESE IN AMERICA

A glowing tribute to the patriotism of the Chinese in the eastern part of the United States was paid by Mr. Li Kung-chuan, executive member of the Kuomintang Headquarters in Philadelphia who arrived here on Nov. 19.

Testifying to their patriotism, he said, is the fact that most of them have spent an average of three hours a day in meetings, fund-raising campaigns and propaganda work for their mother country during the past three odd years, even to the extent of neglecting their own business.

However Mr. Li remarked, they have emphasized too much on donations and overlooked investments for the economic development of China.

RAISE FUNDS

Mr. Li revealed that he is planning to raise funds for the establishment of a plantation in the Southwest. In this connection, he said, he has consulted with Mr. Chow Yung-peng, Director of the Kwangtung Overseas Office and obtained valuable advice from him.

Mr. Li will remain here to wait for the return of General Wu Tchen, Minister of Overseas Affairs, who is now touring in the South Seas, to report to him the Kuomintang affairs in eastern United States.

Prominent Overseas Chinese Leaves

Mr. Chang Pal-chi, member of the South Seas Chinese Comfort Delegation which arrived in China last April, has sailed for Singapore, en route back to Thailand.

Mr. Chang, who arrived here recently after an extensive economic inspection tour in China's Northwest with Mr. Tan Kah-kee, well-known Chinese industrial magnate of Singapore, has drawn up a comprehensive plan for the encouragement of overseas Chinese to make capital investments for the development of China.

Interviewed prior to his departure, he said he would confer with the Chinese in Thailand and other countries in the South Seas about the materialization of the plan after his return there.

While in Hongkong, he consulted with Mr. Aw Boon-haw, Chinese medicine magnate of Singapore. Mr. Tu Yueh-sheng, and other prominent Chinese on the same subject and obtained their endorsement and promise for assistance.

MARINERS WARNED

A drifting lighter of about 55 tons was reported by the Naval Authorities as being in position of Lat. 08° 15' N., Long. 108° 45' E. (approx.) at 10.30 a.m. on Nov. 20, and a danger to navigation, according to a Notice issued by the Harbour Master. Lt.-Comdr. J. Jolly, R.N.R.

KONOYE DIVISION IN CANTON

CHUNGKING, Nov. 22 (Central).—Considerable Japanese troop movement in South China is reported here. The Konoike Division previously stationed in Indo-China is said to have arrived in Canton, while an unconfirmed report states that another Japanese division is being transferred to South China from the Shantung front.

At present, there are two Japanese Divisions on Hainan Island and one division in Indo-China. A new Japanese division is reported to have arrived in Central China recently.

YANCHOW WITHDRAWAL.—The Japanese withdrawal from Yanchow on Nov. 16 was attended by more than 30 casualties and serious losses in arms and food provisions as the result of Chinese attacks, according to information from official sources.

Peace and order is being rapidly restored in the southern Kwangsi city. Since the beginning of this week, many former residents have returned.

Meanwhile, Chinese troops are continuing their drive toward the Kwangsi coast without meeting any serious Japanese opposition.

RETALIATION AGAINST VICHY GOVT. URGED

Judge Tseng Yu-hao, Hon. President and General Secretary of the South College Board of Trustees, has dispatched a telegraphic message to Dr. Wang Chung-hui, Minister of Foreign Affairs, insisting that—

As the Petain regime's recent diplomacy in closing the Hailong-Kunming Railway and in forcefully taking over the courts in the French Concession of Shanghai were expressly in contravention of the French-Chinese Agreements of 1885, 1903, and 1931, China is entitled under the Public Law and rules of treaty operations to deny those French citizens and functionaries in China, who are still obeying the Vichy mandate, all rights and privileges, not only those granted under the Most Favoured-Nation Clause, but also those specifically stipulated, such as consular jurisdiction, customs tariffs, missionary enterprises and the preferential treatments in the Postal Administration.

The petition is accompanied by citations from different conventions referred to.

HONGKONG BASEBALLERS SHOULD WIN AGAINST CYCLONES

Panthers-Wahoos Clash To Provide Interesting Fare

BY R.O.Y.

FANS WILL BE DISAPPOINTED TO LEARN THAT THE WILD-CATS-CANUCKETTES AND THE CHINESE BASEBALLERS-RECREIO ACES fixtures will not be played this week-end, the former clash being put off on account of the wedding of Mary Louis, the Maple Leafs' star hurler, and the latter on account of the Ramblers having to attend a Volunteer shoot.

The usual six-game programme, at the Kowloon Football Club ground, will be played, however, as two second division matches have been arranged to complete the card.

The opener, at 9 a.m., will see the Recreio lassies in action against the Little Flower Club who, judging from their previous displays, have about as much chance as the snowball on the hot spot. Hal Wing Lee, Bimby Abiong and C. M. Xavier will call the game for these two squads, neither of which has as yet managed to open their account for the season.

INTERESTING GAME

The Female of the Species are featured in one other fixture, the Baby Panthers tangling with the Wahoos at 10.30 a.m., with Johnny Alvares, Nip Lum and Johnny Delgado arbitrating. This has all the earmarks of an interesting fight, the Panther Kittens having recently displayed defensive ability that would give them a good chance against the best of the girls' outfits while the Wahoos are but a little weaker than they were last year when they gave the champion Canuckettes a grand race for the pennant.

A second division fracas fills in for the postponed Wildcats-Canuckettes game, the contestants being Chung Hwa and the Royal Engineers with "Ski" Powlawski, Caco Marques and John Fonseca officiating the game. The Chung Hwa outfit are said to be up to First Division standard and here's their chance to prove it. The Sappers haven't been able to field their best line-up since the season started but it is hoped that they turn out in full strength here.

BEST GAME OF DAY

The best game of the day should be the Indian Softballers-St. Joseph's clash which follows at 1.30 p.m., with Herbie Quon, Tufty Chinn and Caco Marques handling the umpiring assignments. The Indians downed Recreio Aces in their last outing and, on that form, should stand an excellent chance against the Collegians who lost to the Portuguese boys by a wide margin earlier in the season. The Collegians have much the heavier hitting squad and, on that account, should be favoured to take the honours.

BASEBALLERS-CYCLONES

The only other first division fixture will feature the colourful Hongkong Baseballers in opposition to the Cyclones who went down so badly to St. Joseph's last week, after giving a convincing display to triumph over the Indians in a previous match. As the Cyclones have a very sound defensive squad, they should hold the

Baseballers to a close margin although they are not expected to win over their more brilliant opponents. Hal Wing Lee, Stan Leonard and Albert Leonard will make the decisions.

JUNIOR GAMES

The programme at the K.F.C. ground will wind up with the Central British Association taking the field against the Royal Air Force in another Second Division match, with "Doc" Molthen, Hans Waggoner and Sunburn Omar umpiring. Manager Joe Higgins is very optimistic of the Central Britishers' chances of finishing the campaign close to the top of the junior standings and does not expect to drop any points to "Tich" Molthen's Flying wallahs.

Two other junior games will be played at the Chatham Road ground: the Royal Scots and Liga Portuguesa tangling at 10.30 a.m., with Welford, H. Osmund and W. Woo officiating at the plate, first and third respectively. The Liga outfit show little improvement for their extra year's experience but should have little difficulty in garnering the points from the Royal Scots who are newcomers to league softball.

GOOD COMPETITION

At 11.45 a.m., the Royal Artillery come all the way from Stanley to take on the Cosmopolitan contingent who look to be quite a fair team. Liga twirler Tony Pereira will handle the plate with Daddy Souza and R. Phillips watching the ticks. A win for the Gunners is too much to expect but they should be able to offer the Portuguese outfit fairly good competition.

Schedule and umpires are as follows:—

KOWLOON FOOTBALL CLUB

9 a.m.: Little Flower Club v. Ramblers—H. Wing Lee, A. Abiong and C. Xavier.

10.30 a.m.: Baby Panthers v. Wahoos—J. Alvares, N. Lum and J. Delgado.

12 noon: Chung Hwa v. Royal Engineers—Powlawski, C. Marques and Fonseca.

1.30 p.m.: Indian S.C. v. St. Joseph's—H. Quon, T. Chinn and C. Marques.

2.45 p.m.: H.K. Baseballers v. Cyclones—H. Wing Lee, S. Leonard and A. Leonard.

4 p.m.: Central British v. R.A.F.—F. Molthen, C. Waggoner and A. M. Omar.

CHATHAM ROAD

10.30 a.m.: Royal Scots v. Liga—J. Welford, H. Osmund and W. Woo.

11.45 a.m.: Cosmopolitan v. 8th R.A.—A. Pereira, E. Souza and R. Phillips.

Chang Chun Given Added Responsibilities

Gen. Chang Chun, newly appointed Chairman of the Szechwan Provincial Government and concurrently Director of the Chengtu Office of the Generalissimo's Headquarters, was given added responsibilities, when the Executive Yuan appointed him in concurrent capacity to the posts of Commander of the Szechwan Military District and of the Szechwan Peace Preservation Corps.

In an attempt to avoid another lorry parked in front of the Ying Chong Hong, the driver of lorry No. 6022, owned by the Cheong Kee coal merchants, of No. 400, Lockhart Road, swerved towards the tram-tracks and collided with tram No. 21, which was proceeding from east to west at 10 a.m. yesterday.

The rear front of the tram was dented and the glass smashed. The hand-rails on the first class entrance were torn off by the force of the impact.

The lorry was not damaged.

STOP PRESS

A quantity of coconut husks stored at the basement of No. 21, Lower Lascar Row, caught fire yesterday. The fire was quickly brought under control by the Fire Brigade, the resultant damage amounting only to between \$300 and \$400.

JUNK MURDER TRIAL

ACCUSED GIVES EVIDENCE

"I know nothing about firearms. The ship had one rifle, but no small firearms. The master kept the rifle in his own cabin," said Ho Leung-chai, alias Ho Kam chuen, accused on a murder charge, before the Chief Justice, Sir Atholl MacGregor at the Criminal Sessions yesterday.

Ho, sailor on a trading junk, was alleged to have shot and killed Chan Chuen on board the vessel near Nine Pins Group, within British Colony waters on Feb. 24 this year. He was arrested seven months after the alleged crime.

Mr. J. P. Murphy, Assistant Crown Solicitor, assisted by Sgt. A. F. Estall, prosecuted, while Mr. E. Somerset Fitzroy, instructed by Mr. J. M. D'Almada Remedios, was for the defence.

ACCUSED TESTIFIES

The accused, in the witness box yesterday, denied killing the deceased. He said that it was a foggy night, and drizzling. About 9 p.m. while he was on duty, he saw a junk burning, set afire by Japanese. His master, Ho Shing, shouted an order to alter course to return. He heard some voices and next heard a shot. He then saw his master standing at the stern, with three Chinese men next to him and a man lying dead.

Ho Shing told him that when he shouted out order to change the course, the men refused and attempted to snatch his rifle. There was some struggle, and Ho Shing pulled the trigger by mistake and shot Chan Chuen.

The place of the shooting was near Sham Man Customs, Chinese territory, and not near the Nine Pins as alleged by the Crown. At the end of the voyage he received \$87.50 in Chinese currency and was paid off.

NOT ON DECK

Cross-examined by Mr. Murphy, accused said that three Crown witnesses who had given evidence they had seen him firing the shot, were not on deck.

He admitted that at no time while he was in Hongkong did he report the robbery to the police. Hearing was adjourned to Monday.

CHINESE ENGINEERS' SOCIETY

The annual meeting of the Chinese Engineers' Society is scheduled to be held in Chengtu early next month. The main item on the agenda of the forthcoming meeting will be a study of Dr. Sun Yat-sen's Plan for National Reconstruction with a view to formulating a practical post-war reconstruction programme.

Generalissimo Chiang Kai-shek has been invited to be the honorary president of the Society.

The Society plans to organise an investigation party to study the conditions in Szechwan, for which purpose a sum of \$20,000 is being raised. Of the sum the Szechwan Provincial Government has contributed \$3,000, while the Ministry of Education and the Ministry of Economic Affairs are expected to contribute \$5,000 and \$5,000 respectively. The party will set out in the beginning of next year.

The first plenary meeting this year of the Chungking Chapter of the Society was held in Chungking on November 17 with more than 100 members in attendance, including Mr. Chen Li-fu, Minister of Education, who is president of the Society. (Central News)
